DETAILED ACTION

1. This action is in response to applicant's amendment received on 2/29/08.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 25 and 29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kimura et al. (4,618,085) in view of Rutherford (5,505,551).

Kimura et al. discloses the invention substantially as claimed including a tear bar 1301, first and second portions 1301B and a central portion 1301A. Kyle show a central portion having a diameter larger than the first and second portions instead of a central portion having a diameter less than the first and second portions. Rutherford shows that tear bar (see Fig. 14) having first and second portions 94 higher than a central portion 96 is equivalent structure known in the art. Therefore, because theses two tear bars were art-recognized equivalents at the time the invention was made, one of ordinary skill in the art would have found it obvious to modify tear bar 1301 of Kimura et al. for a central portion having a diameter less than the first and second portions. Kimura et al. teaches remains in a fixed position (see col. 13, lines 48-50).

Allowable Subject Matter

4. Claims 1-3, 5-7, 19, 20 and 22-24 are allowed.

5. Claims 26-28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.
